

ORAL PRESENTATION
VENUE : LT 1
DATE & TIME= 12-1 PM ; 6 APRIL

Sno	Name	Oral Presentation	Time
1	Ahmad SR	Perioperative outcomes of Pelvi-acetabular fracture surgeries in an Apex Trauma Centre: Does Combined Regional and General Anaesthesia affect the outcome?	1200- 1210
2	Anuradha P Borle	Paravertebral bupivacaine for percutaneous nephrolithotomy under general anaesthesia: an observer blinded, randomised trial of analgesic efficacy	1210- 1220
3	Monika Gulati	To compare the efficacy of tramadol with diclofenac given per rectally for postoperative analgesia in laparoscopic cholecystectomy.	1220- 1230
4	Monika Gulati	To compare the effects of ropivacaine (1.8 mg/kg) with fentanyl (50 µg) and ropivacaine (1.8 mg/kg) with clonidine (75 µg) for intravenous regional anaesthesia (IVRA) for upper limb surgeries.	1230- 1240
5	Prof Rana RB	Anesthesia for pediatric strabismus procedure as day care surgery with "Universal Anesthesia Machine": TIO experience.	1240- 1250
6	Ridhi kundu	Safety and analgesic efficacy of intravenous dexmedetomidine in arthroscopic knee surgery: A randomised controlled study Safety and analgesic efficacy of intravenous dexmedetomidine in arthroscopic knee : A randomised controlled study	1250- 1300
7	Vishwas sathe	Addition of dexmedetomidine as an adjuvant to local anesthetic agent in intravenous regional anesthesia	1300- 1310
8	Yuvraj MK	Comparative evaluation of three different propofol bolus doses using total intravenous anaesthesia in oocyte retrieval patients	1310- 1320
9	Ankush arora	Supraclavicular brachial plexus block using levo bupivacaine with and without midazolam	1320- 1330
