INTERNATIONAL TUTORIALS AESTHETIC PLASTIC SURGERY

INDRAPRASHTHA APOLLO HOSPITAL
NEW DELHI, India

Thursday 27th - Sunday 30th JANUARY 2011

UNDER THE AUSPICES OF

COURSE FOUNDERS

PROF. DR. THOMAS BIGGS PROF. DR. ASHOK GUPTA

Welcome Note

**Dr. Pratap Reddy
Padma Vibhushan**

Chairman
Apollo Group of Hospitals

Dear Plastic Surgery Colleagues:

Aesthetic Plastic Surgery is a young and innovative specialty that has evolved from the rapid development of microsurgery.

The joy for practitioners in the field is owed not only to the enhanced self-esteem that patients report post surgery, but to the humanitarian work involved in helping patients recover from disfigurement and socially excluding sequelae of trauma that often occur following tragic instances.

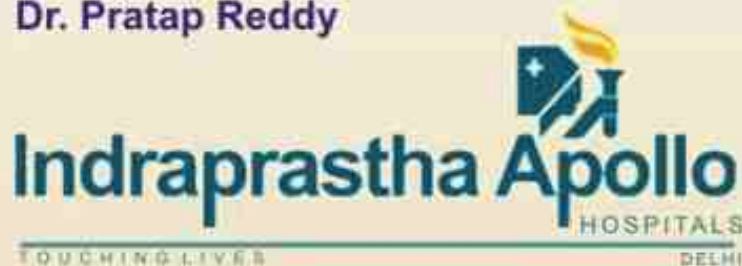

It is therefore little wonder that the philosophy of aesthetic plastic surgeons is to promote health, well being and self-esteem through a comprehensive and personalized approach worked out for the augmentation of body image and restoration of form or function.

In addition to this, we must also make every effort to ensure that patients make well-informed choices that are in their best interest, to be able to achieve the best results possible. We want every patient to look and feel their best, and so we must commit ourselves to the highest level of patient care, safety, satisfaction and exemplary ethical standards.

I am happy that the learning and knowledge in the field of Aesthetic Plastic Surgery will largely benefit from the International Tutorials being organized. I wish the endeavors great success.

Dr. Pratap Reddy

Confirmed Guest Faculty

Prof. Dr. Thomas Biggs
USA

With great pleasure we announce the Sixth Annual Tutorial in Aesthetic Plastic Surgery. In an effort to reach out and involve a greater involvement of plastic surgeons across the country the decision was made to move it to various cities.

Proudly we announce that the coming Tutorial will be held 27-30 January, in Delhi, under the local management of Dr. Anup Dhir with Dr. Satish Arolkar. We have enlisted once again experts in various aspects of aesthetic plastic surgery from around the world to participate. Their presence will be to associate with the attendees through their lectures, live surgery, discussions, and personal contact during coffee breaks and other social events.

In addition to experts from foreign shores we have recognized authorities from India as well, showing to the attendees and the world that high quality plastic surgery is not confined to other western world countries.

With enthusiasm I look forward to this continuing exercise in the pursuit of excellence.

Prof. Dr. Thomas M. Biggs, M.D.

Confirmed Guest Faculty

Prof. Dr. Thomas BIGGS, USA Clinical Professor at the Division of Plastic Surgery, Baylor's College of Medicine, Houston, Texas, USA. INTERNATIONAL COURSE ON FOLLICULAR UNIT EXTRACTION TECHNIQUES

Follicular Unit Extraction (FUE), the new method of extracting hair follicles from the donor area without a linear incision is gaining popularity. FUE is a minimally invasive surgical procedure that can benefit a limited subset of patients for hair restoration surgery and should be available in every hair restoration practice for use in appropriate candidates. Healing is quick, scarring is virtually nonexistent, and discomfort in the donor area has been eliminated

Before 15th Jan 2011		After 15th Jan 2011
For all 2 days	12,000/- INR / 250 US \$	15,000/- INR / 300 US \$
